🚀 DEMO MODE

This deployment is running in **demo mode** with the following features:

✅ What Works:

- **Landing Page**: Professional cosmetics platform UI
- **Product Form**: Interactive form for product descriptions
- **AI Formula Generation**: Simulated AI-powered formula creation
- **Product Mockup Display**: High-quality product images
- **Complete Results**: Detailed formula with ingredients, instructions, and cost analysis

🔧 Demo Features:

- **Mock AI Generation**: Simulates 3-second processing time like real AI
- **Realistic Formula Data**: Professional cosmetics formulation with proper INCI names
- **Static Export**: Optimized for fast loading and deployment
- **Responsive Design**: Works on all devices

🎯 Try The Demo:

1. Visit the landing page
2. Click "Generate Formula"
3. Enter a product description (or use the examples)
4. See the AI-generated formula and product mockup!

💡 Full Version:

The complete version with real Gemini AI integration is available in the source code.
